CYBERDYNE, INC.

Osaka Robocare Center opens
~ HAL FIT training program is now available in Osaka~

CYBERDYNE, INC. (the “Company”) in coordination with Specified Non-profit Juridical Person Eijyu and the Company’s subsidiary Suzuka Robocare Center Co., Ltd. will open Osaka Robocare Center on October 1, 2018.

Alike the other Robocare Centers, Osaka Robocare Center will utilize the Company’s Robot Suit HAL that is activated by the intended motion of its wearer, to offer HAL FIT fitness training program. The HAL FIT program is an advanced training program towards visitors with disabilities or physical weaknesses.

The Company currently offers the HAL FIT program at 4 areas in Japan. Osaka will become the 5th area to offer the HAL FIT program. Opening of the facility in Osaka will increase accessibility for visitors who live in Kansai area as well as visitors in Chugoku and Shikoku areas.

*Specified Non-profit Juridical Person Eijyu

Eijyu offers nursing-care services in Osaka prefecture. At Eijyu Care Center, which is run by Specified Non-profit Juridical Person Eijyu, has operated HAL training for eight years.
