【News】 Capital and Business Alliance with Allm

CYBERDYNE Inc. (Tsukuba, Ibaraki, CEO: Yoshiyuki Sankai; from now on referred to as "the Company") announced today that it has entered into a capital and business alliance (investment from the Company to Allm) with Allm Inc. (Shibuya, Tokyo; CEO: Teppei Sakano; from now on referred to as "Allm"), a provider of mobile ICT solutions in the medical and welfare fields.

Since its establishment, Allm has been providing cloud-based information distribution platforms using digital technology. Since 2015, Allm began to specialize in the medical and healthcare fields, aiming to create a global social welfare design by developing and providing medical ICT solutions. Allm has been actively promoting overseas expansion. The company established bases in eight countries (the United States, Germany, the United Arab Emirates, Brazil, Chile, Taiwan, Malaysia, and Rwanda). It provided medical ICT solutions to 23 countries.

By combining Cybernetics Technology (technology that integrates human, robot and information systems) to Allm's active business development in Japan and overseas in the field of medical and healthcare industry, we will realize the accumulation, analysis, and AI processing of IoH/IoT Big Data (data of information related to the brain-nerve, physiological, physical, behavioral, lifestyle, and environmental system), and further accelerate the creation of the "Cybernetics Industry".
